

**Drawings:** Please replace two drawing sheets containing Figures 1 through 3 and replace them with two replacement sheets containing Figures 1 through 3, filed herewith.

### REMARKS

In the last office action, reference characters 106 and 119 were found both to refer to a slanted edge of parasitic elements. FIGURE 1 is amended, changing character reference 106 to 119, eliminating the conflict.

In addition, reference characters 106, 107, 108 and 116 were found in the figures but not in the specification. FIGURES 1 and 2 are amended, deleting reference characters 107, 108 and 116 and changing reference character from 106 to 119.

Consideration of the above amendments and remarks is requested and it is submitted that such amendments and remarks place the application in a condition for passage to issue. Applicant requests entry of amendments and passage to issue of the application.

Respectfully submitted,
